WHAT IS IT?

Oceanscapes is a cross-disciplinary conference with a focus on the cooperative nature of relations across the Pacific. Essential to the region are the partnerships that allow for effective delivery of programs in health, education, trade and development while maintaining the integrity of the cultural diversity that is the hallmark of Pacific islands nations and overseas territories.

The Australian Association for Pacific Studies seeks to bring researchers together to share their knowledge and experience; to benefit the peoples of the Pacific region, and to advance scholarship about the places across this life-giving ocean.

CALL FOR PAPERS

We welcome papers in the following areas:

- Activism
- Pacific Futures
- Populations on the move
- Performing/performance
- Archaeology now
- Search for stability

Special sessions focussing on post-graduates will be held on 25 April. Participants are welcome to join us at Casula Powerhouse for a Pacifica Celebration the following day.
